

Reel-to-Reel Audio Recordings on CD-ROM

From 2008 to 2010, the College Archives sent select reel-to-reel recordings of speaker presentations at the College to a company specializing in media migration. The Richard R. Hallock Foundation provided a grant for the project in 2008-09. Additional funds were drawn from a special endowment, the Hunt Preservation Fund, established in 2007 to enable the Oberlin College Archives to undertake preservation, conservation and digital access projects for artworks, recordings, photographs, and other objects in need of treatment, stabilization and/or migration to new media. See the [Office of Communications \(RG 18\) finding guide](#) for an inventory of the titles and dates of these recorded presentations, as well as all reel-to-reel recordings in that record group. Additional sound recordings reside in the Sound Recordings Record Group (RG 37).
